OFFICE OF PETITIONS

Dear Sir:

In response to the office action mailed May 9, 2001, please amend the above patent application as follows:

IN THE CLAIMS

Please cancel claims 52 -75 and insert the following new claims:

76. A method for making a semiconductor device comprising a semiconductor substrate having a lowered effective electrical resistivity, the method comprising:
- in a first surface, forming a plurality of source regions of dopants of one polarity, said source regions all electrically connected together;
 - in the substrate below the source regions forming a drain layer of dopants of the same polarity as the source regions;
 - between the source regions and the drain layer, forming well regions of dopants of opposite polarity to define channels between the source regions and the drain layer;
 - forming gate regions over the channels and between the source regions and the drain
